# Our 1936 Introductions

**ANNA MAY WONG**

## **ANNA MAY WONG (Stephenson) I. D.**

This is a huge flower. In color, a bright spectrum red with a light reverse. The twist and curl of the petals gives a silvery sheen to the tips and adds much to the beauty of the bloom. Stems and foliage good.

**Roots \$10.00      Plants \$5.00**

## **BROOMALL'S PINK—(Broomall-Stephenson)**

We are proud to offer you this introduction. A dahlia Mr. Broomall considers fine enough to give it his name. It is outstanding in color, a 'TRUE ROSE PINK', and the heavy substance and texture of the petals give it a beautiful velvety appearance. It is semi-cactus in form and is easily grown 10 to 12 inches with good depth. Stems and foliage excellent.

**Roots \$15.00      Plants \$7.50**

## **BONNIE BELMONT—(Cochran-Ruschmohr)**

A semi-cactus of beautiful bright yellow on long stiff stems. Won as the best undisseminated semi-cactus in the Rockville Centre Show in 1934.

**Roots \$10.00      Plants \$5.00**

## **DOROTHY BRANT MILLER—(Stephenson)**

A beautiful shell pink MINIATURE, with good stems and a splendid cut flower. In your garden this miniature will bloom early and will remain a mass of color throughout the season. On 1936 Honor Rolls.

**Roots \$2.00      Plants \$1.00**

## **ORCHID MOONLIGHT—(Greenough-Ruschmohr)**

A formal decorative of beautiful mauve pink. This is an excellent grower, the foliage of which is insect resistant and it has good stiff stems. This dahlia received a certificate of merit in Storrs in 1934, was the winner as the best undisseminated formal decorative in the New York Show this year, as well as the Rockville Centre Show.

**Roots \$10.00      Plants \$5.00**

### **RED JUG (Preas-Ruschmohr)**

This is a semi-cactus of a striking cardinal red color, the petals being tipped yellow. The blooms average 10 inches in diameter and five inches deep. The stems are long and stiff and the leathery foliage is insect resistant. The plant has a natural growth up to six feet in height, and produces flowers of remarkable keeping qualities. Won the American Home Achievement Medal as the best undisseminated dahlia in the West Virginia Show in Fairmont in 1934. In 1935, won as the best undisseminated semi-cactus at Rockville Centre, New York, Valley Stream, New York, and Camden, New Jersey. At the Cleveland Show, won as the best undisseminated dahlia shipped by plane over five hundred miles. After traveling this distance, on the second day of the show, the blooms created much favorable comment on their freshness. Furthermore, it received a Certificate of Merit at Storrs in 1935.

**Roots \$10.00 Net      Plants \$5.00 Net**

### **RITA CANSINO (Stephenson) I. D.**

This dahlia is lemon yellow in color, splashed with rich carmine. The foliage is a rich green and the combination gives it a truly Spanish coloring. Stems excellent. The flower has size and depth. (Illustrated on front cover.)

**Roots \$10.00      Plants \$5.00**

### **RUDOLF'S GIANT (Rudolf-Ruschmohr) I. D.**

This dahlia is signified by its name. With the usual disbudding and no overfeeding, it will grow at least 12 inches with good depth. The centers are tight and compact. The color is BRIGHT BUFF APRICOT, and is one of the best in the autumnal shades. Excellent foliage and good stiff stems. It received a certificate at Storrs in 1934 as Rudolf's Seedling No. 612, and was winner as the best informal in the Rockville Centre Show in 1935.

**Plants \$7.50 Net**

## **Other Introductions for 1936**

### **AZURA (Ballay) I.D.**

Rosy lilac with a bluish violet sheen. A large deep flower of interesting formation; free bloomer. Plants grow tall with strong growth. Winner as the Best Undisseminated Decorative at the San Francisco Show.

**Plants \$7.50 Net**

### **CALIFORNIA PEACH (Ballay) S. C.**

Bright coral or peach pink with no trace of lavender. Size and formation of this flower is very similar to Satan. California Peach was the sensation of the Boston Show, winning as the Best Flower in the Show, the Massachusetts Horticultural Society's Medal as Best New Dahlia, and the Home Achievement Medal. Winner as the Best Undisseminated Semi-Cactus at San Francisco. On the 1936 Honor Rolls.

### "CALIFORNIA'S FINEST SEED"

Our seed is selected only from the largest and finest varieties, grown and ripened under ideal conditions. The garden is planned and planted to get the best possible results from cross-pollenization. We do not hand-pollenize but use bees to do this work in Nature's own way. There is no finer seed produced, and we have many letters from large Eastern and Mid-West growers to substantiate this statement. They are growing prize winners. Why not you?

Such seed is never plentiful and the better seed you plant, the greater your opportunity to originate a new and finer dahlia.

We can supply this seed in mixture or one named parentage.

**20 Seed, \$1.00; 100 Seed, \$5.00**  
**1000 Seed, \$40.00**

## Dahlia Plants

are sprouts or cuttings taken from stock of named varieties, started early in the greenhouse, rooted in sand benches, potted and grown inside until established, then moved to cold frames for hardening off, ready for shipping and field planting.

If you do not grow your dahlias from green plants, we suggest that you give them a trial, for, when properly grown from healthy stock and given the care that any plant requires, they will give you better blooms and will make a nice clump of roots for future plantings. However, they must be cultivated and watered, and, if insects bother, sprayed with an insecticide.

Dahlia Green Plants are ready for shipment after April 15, and will bloom at about the same time as roots that have been planted three weeks earlier. The price of plants is one-half or less than the price of roots of the same variety. We recommend their use very highly, especially for our local conditions in Southern California.
